EDUCATION

Bachelor of Technology, Computer Science, USICT	2019-2023
C.G.P.A - 8.7	
Class XII, CBSE	2018 - 2019
Percentage - 94.3	

SKILLS

Languages	Java, C++, C
Web Dev	JavaScript, ReactJS, NodeJS, Redux, Express
CSS	Tailwind CSS, Material UI, Bootstrap
Database	MongoDB
Version Control	Git

EXPERIENCE

System Engineer, Tata Consultancy Services	Dec 2023 - Present
---	--------------------

- Working on Metlife's MetDental project, a Dental Provider Servicing Application in the US.
- Developed a **Multi-User Admin Tool** allowing one admin per office to invite others for registration and manage their roles.
- Built a **custom registration page** integrated with **PING Identity** for secure invitation-based registration.
- Streamlined the onboarding process and enhanced control over user access for dental offices.
- **Tech Stack:** ReactJS, NodeJS.

Summer Intern, ACM USICT	Jul 2022 - Sep 2022
---------------------------------	---------------------

- Developed a movie/TV show search app using ReactJS with filtering options based on genres.
- [Link to Certificate](#)

PROJECTS

MovieVerse:

- Developed a web application for movie and TV show search, featuring a trending section and genre filter for enhanced user experience.
- Implemented API integrations for fetching data and built responsive designs for a seamless experience across devices. [Source Code](#) & [Demo](#)

IPU-Innovation and Incubation Center Website:

- Developed a full-stack web application for GGSIPU-IIF, providing students with real-time access to event details, notices, and updates.
- Integrated MongoDB for efficient data storage and retrieval of events and user data. [Source Code](#) & [Demo](#)

EXTRA-CURRICULAR ACTIVITIES

PR Team Co-Lead, E-cell USICT: Organized entrepreneurship events and facilitated MOUs with colleges for participation in E-cell events.
